METRISO® 2000 TEST KIT

Metriso® 2000 - test kit includes: digital high resistance tester, temperature and relative humidity adapter, USB infrared adapter, PC software for Windows®, 2 probes, hand-held probe with connecting cables, user's instructions in German, English and French, calibration certificate, conductive carrying case fitted with dissipative pink foam.

- Suitable for resistance point-to-point and resistance to ground measurements
- Integrated data logger with infrared communication port for data transmission (2.500 test values)
- Clip-on humidity and temperature sensor

Test voltage:	DC 10 volts, 100 volts, 250 volts and 500 volts
Test range:	10^3 to 10^{12} ohm
Operation:	Battery operated
Probes:	2 x Model 850 (weight: 2,27 kg / ø 63,5 mm) with conductive rubber 1 x hand-held probe Model 45

clip-on humidity and temperature sensor

complies with
IEC 61340-4-1
IEC 61340-2-3
IEC 61340-4-5

TEST AND MEASUREMENT

Part Nr.

7100.2000.MK	Metriso® 2000 Test Kit, German version
7100.2000.MK.E	Metriso® 2000 Test Kit, English version
7100.2000.G	Metriso® 2000 Test Instrument only, German version
7100.2000.G.E	Metriso® 2000 Test Instrument only, English version
Accessories	
7100.2000.TR50	50 m extension cable for floor measurements
7100.2000.ML	Replacement set of connecting cables (com/shield, +pole)

R_g system
Resistance of person/
ESD shoes/flooring to ground

R_{p-p}
Point to Point
Resistance

R_g/R_{gp}
Resistance to ground
or groundable point
